Ultrasonic Cleaning

A&I uses the Ultrasonic Machine Method. This machine allows us to clean virtually any type of blind on the market safely. This safe and highly effective method of cleaning minimizes the risk of damaging or even breaking your blinds.

Green Cleaning

We know that after we've finished cleaning your blinds that dirty water goes somewhere into our water system. That's why we use only Green cleaning products during the process. Not only is it easier on your blinds it's easier on our employee's and our environment.

Disclaimer & Liability Information

Products under A&I Warranty

A&I is committed to making this process as easy as possible for our customers. We will service all of our product lines still under warranty for free. If your product shows abusive damage your product is void warranty and you will be charged for all repairs.

A&I can not give a warranty on old parts a pieces used for repairs. In some cases older warrantied products have components we no longer use, and have been replaced with better components for an improved product line. If we have no older parts in stock you will be responsible for the cost of up-grade to repair your product.

Non A&I products

Here at A&I we keep a limited quantity of other companies parts and pieces. Please call in to check to availability of the repair or part you are looking for.

Having A&I modify another companies product may void their warranty. This is includes but is not limited to the following list;

- Any repair work
- Cut Downs
- Headrail and/or bottom rail replacement
- Ultrasonic Cleaning

A&I can not warranty modified or repaired product lines from other companies.

Cleaning

Our Ultrasonic Cleaning is the safest and greenest way to clean your shades. However we cannot guarantee how your product will react. A&I accepts no responsibility for uncontrollable damage. This is includes but is not limited to the following list;

- Discoloration
- Delamination of Cellular Shade fabric
- Warping of slat
