# Measure Instructions

1" Horizontals

**Tools needed:**

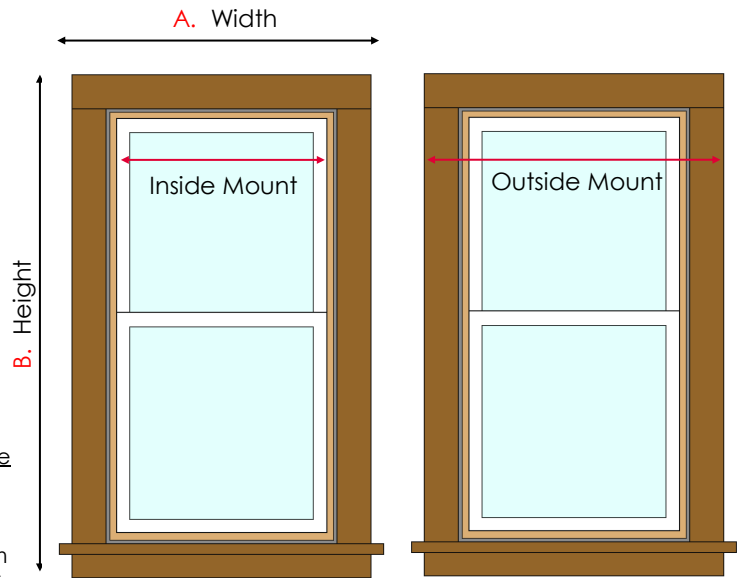

Tape Measure  
Pencil

Order Form  
Cut Out Diagram  
Angled Diagram

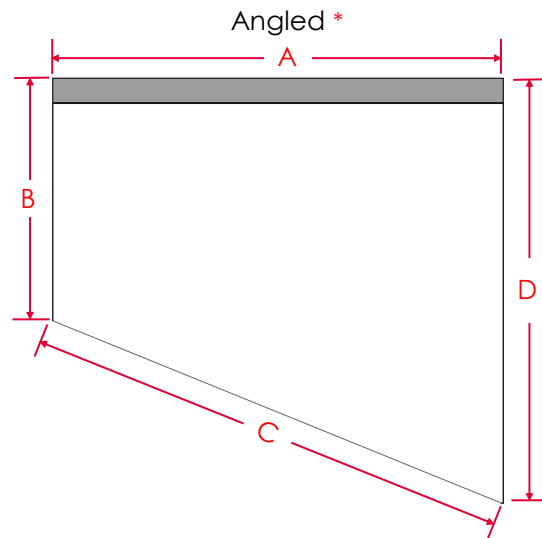

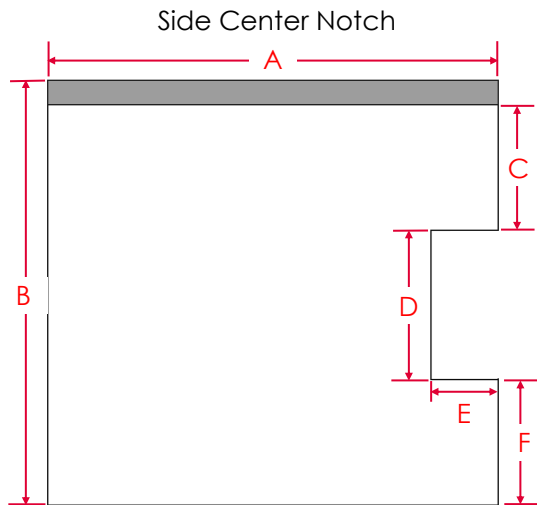

## Standard Shade:

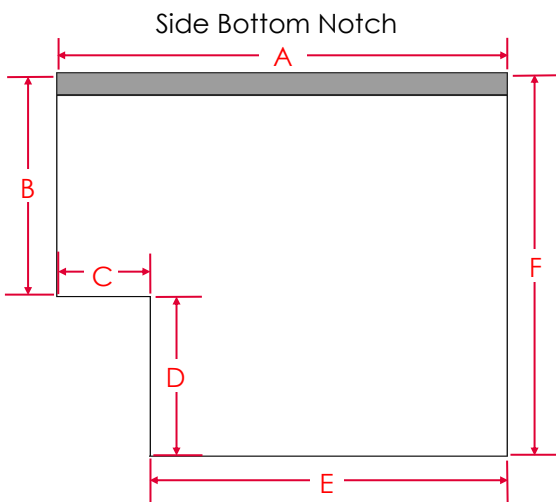

Follow lettered guides for correct measuring and cut-outs.

Please Note:

- When measuring for an inside mount, measure in three different places and take the smallest measurement. This ensures that your shade will fit inside the window sill.
- Fill out appropriate Cut-Out or Angled Shade Diagram Order Form to make sure your blind is ordered correctly.
- When measuring for a Cut-Out, think of the blind in a flat tilted up or down position. This will allow for adequate space around your cut out.

# Install Instructions

1" Horizontals

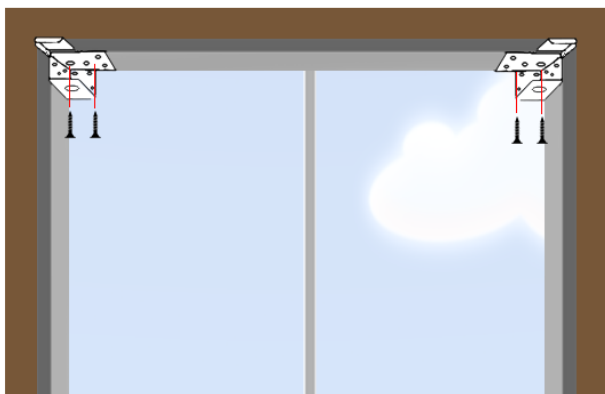

## Tools needed:

## Included with shade:

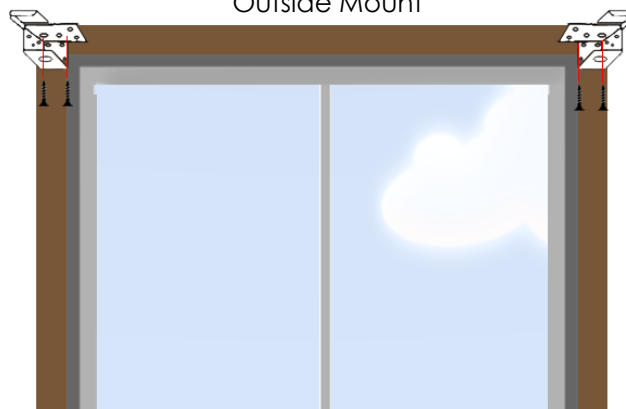

### Inside Mount

#### Inside Mount

1. Make sure the top of the sill is level and clear of anything that could be in the way. Center the blind inside the window casing.
2. Make pencil marks below the headrail on each end, for an inside mount the box brackets will be placed on these marks.
3. Attach the two end brackets flush against the sides of the window casement.

### Outside Mount

#### Outside Mount

1. Position blind in desired area. Make sure the headrail is level.
2. Make pencil marks below the headrail on each end, for an inside mount the box brackets will be placed on these marks. Also make a mark 1/4" to the outside of the headrail end marks.
3. Align the outside of each bracket with the outer marks and attach.

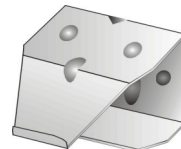

## Installation

After brackets are installed, follow these directions:

1. Snap the valance clips over the front lip of the headrail before putting the blind into the box brackets, keep in mind to position the clips away from the ladder and cords.
2. Insert the headrail into the box brackets; if an center support bracket is being used, make sure that is connected with the headrail as well.
3. Close the swivel cover on the box bracket to lock the headrail into place.
  - If your blind does not fit snugly: open the swivel covers on the box brackets, remove the blind and pry out the tab on the headrail ends. Reinstall the blind.
  - If your blind is too snug: open the swivel covers on the box brackets, remove the blind and press the tabs in on the headrail ends. Reinstall the blind.
4. Slide or snap in the 2 valance slats, one at a time, into the clear, grooved arms of the clips. If your valance slats need to be altered, you can trim the slats with household scissors.

### Center Support Brackets

If your blind is over 60" wide, you have been supplied center support brackets. Center supports are meant to be spaced evenly, and in a place where they will not interfere with any lift cords or slat ladders. Center support brackets should be mounted level with the left and right mounting box brackets.

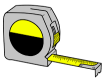

# PerfectFit Instructions

1" Horizontals

**Before you begin**, ensure there is a 1/4" clearance all around the outside of your window beading to allow enough room for the Perfect Fit framework. Also check that the seals of your window frame do not protrude over the glass more than 1/4" and that they are compressible.

## Measure:

Tools needed:

Tape Measure

Pencil

Order Form

### Step #1 - Measure Glass Size

Measure the width and the drop of your window size accurately with a digital measuring tape. We recommend that you measure in both corners and the middle of your window and use the smallest size taken.

### Step #2 - Measure Window Depth

Measure the depth of the window using the depth gauge. This gives you the measurement from the face of the window frame to the glass (this is normally 3/4" or 15/16") and will determine the size of the window fixing brackets you will use.

## Install:

Tools needed:

Credit Card

Screwdriver

Included with shade:

Screws

Brackets

### Step #1 - Insert Brackets

For the correct spacing distance of the brackets (85mm), place the credit card into a corner of the window.

Line up the window fixing bracket at the base of the card (or top of the card depending upon which corner of the window you are working) and fit the bracket by pushing it between the glass and the rubber seal on the window. Using the credit card guarantees a perfect line up for each of the holes in your frame with each bracket

### Step #2 - Attaching Frame to Window

Line up the holes in the frame with the window fixing brackets. Firmly press down the frame onto each bracket on one side at a time to ensure easier installation

Your PerfectFit Shade is now installed!

# 1" General Warranty

## Statement of Warranty

A&I Manufacturing is proud to extend a Limited Lifetime Warranty on our 1" Horizontals. Each product is warranted to the original residential retail purchaser to be free from manufacturing defects in materials and workmanship as long as the product remains in the original window. This Limited Lifetime Warranty is not valid for products used for commercial use, rentals, and non-residential use in which cases there is a Limited 1 Year Warranty.

**A&I proudly offers a 5 Year Limited Lifetime Warranty on all cords and components for all of our 1" Horizontal product lines for residential use.**

## Warranty Exclusions

This Limited Lifetime Warranty does not cover any product that fails due to:

- Accidents
- Alteration
- Misuse
- Abuse/Extraordinary Use
- Misapplication
- Improper handling
- Improper Installation
- Any conditions caused by normal wear and tear over the passage of time
- Cleaning
- Loss of color intensity
- Exposure to salt-air, or extreme heat
- Damage from insects or pets
- Damage from water
- Yellowing or cracking of plastic parts with the passage of time

## Cord & Components Warranty

This Limited Lifetime Warranty **does not** cover transportation costs to and from the retailer, costs of removal, re-measure, or reinstallation of product, or any incidental or consequential damages.

## Warranty Remedies

If an A&I Manufacturing product is found to be defective in materials or workmanship, we will, at our discretion: repair, replace or refund the cost of the product which fails to conform to this Limited Lifetime Warranty.

Colors do vary from lot to lot and may not exactly match sample swatch or previously purchased product. Discontinued items or colors will be replaced with the closest equivalent available. This shall be the sole remedy under this Limited Lifetime Warranty.

## To Obtain Service:

Please return product, along with your original sales receipt or work order, to the original retailer from which the product was purchased and they will return the product to A&I Manufacturing.
